

# Horticultural projects

**Van der Hoeven greenhousebuilders bv**  
*Horticultural projects*

## Company introduction

- Founded in 1953, experience in 65+ countries
- In 1999 management buy-out, currently 2 owners
- Company turn over in 2010 approx. Euro 35 million
- Exports in 2010 approx. 95% of turn over
- In-house design and production of greenhouse
- 55 employees
- AVAG member
- HortiQ certified

Van der Hoeven greenhousebuilders bv

*Horticultural projects*

# Products

- Glasshouses
- Poly greenhouses
- Heating systems
- Turn Key projects
- Solar greenhouses
- Booghal cow sheds

**Van der Hoeven greenhousebuilders bv**  
*Horticultural projects*

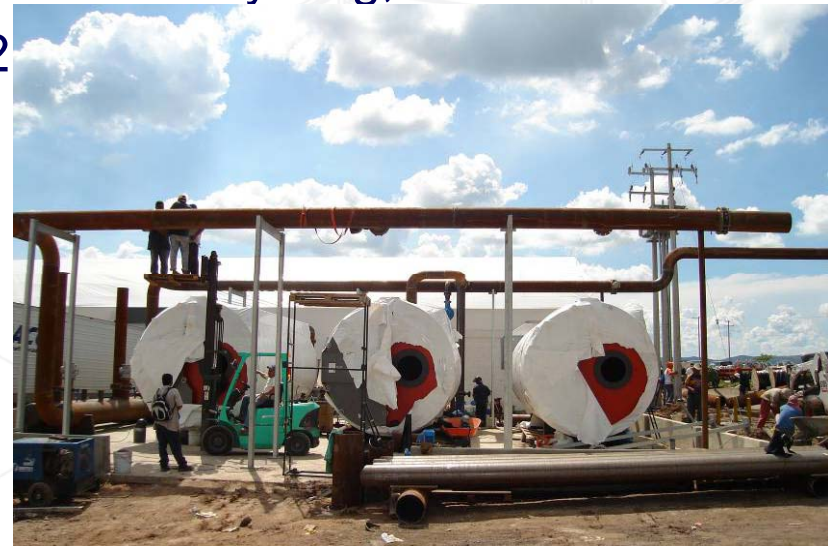

# Main activities

- Design and manufacturing of greenhouses
- Design and realization of heating systems
- Design and integration of complete projects (irrigation, computer etc.)
- On-site construction of (turn key) project
- Purchase management
- Logistics, shipping
- Site management
- H & S management

## Many reasons why

- More production, better quality production;
- Constant production in quantity;
- Year-round production;
- Supply to supermarkets, long term contracts;
- Less water and fertilizer consumption due to recycling;
- Possible use of (waste) heat and CO<sub>2</sub>
- Lower labor costs;
- Low maintenance costs;
- Sustainable production;
- Food safety;

- Lower costs/kg output and better returns!

## Current building sites

### A few of the current building sites

- France
- Mexico
- Australia
- Kuwait
- Ukraine
- South Korea
- Greece
- United Kingdom

Remarkable projects / under construction

**Van der Hoeven greenhousebuilders bv**

*Horticultural projects*

# Project Anthura

- Product: Venlo 15,00m glass house with 8,00m and 16,00m posts
- Type of project: supply, construction and project management
- Culture: Anthurium young plants
- Location: Rotterdam region, The Netherlands
- Area: 12,00 ha
