

# UNIVERSITY OF CHILE (1842)

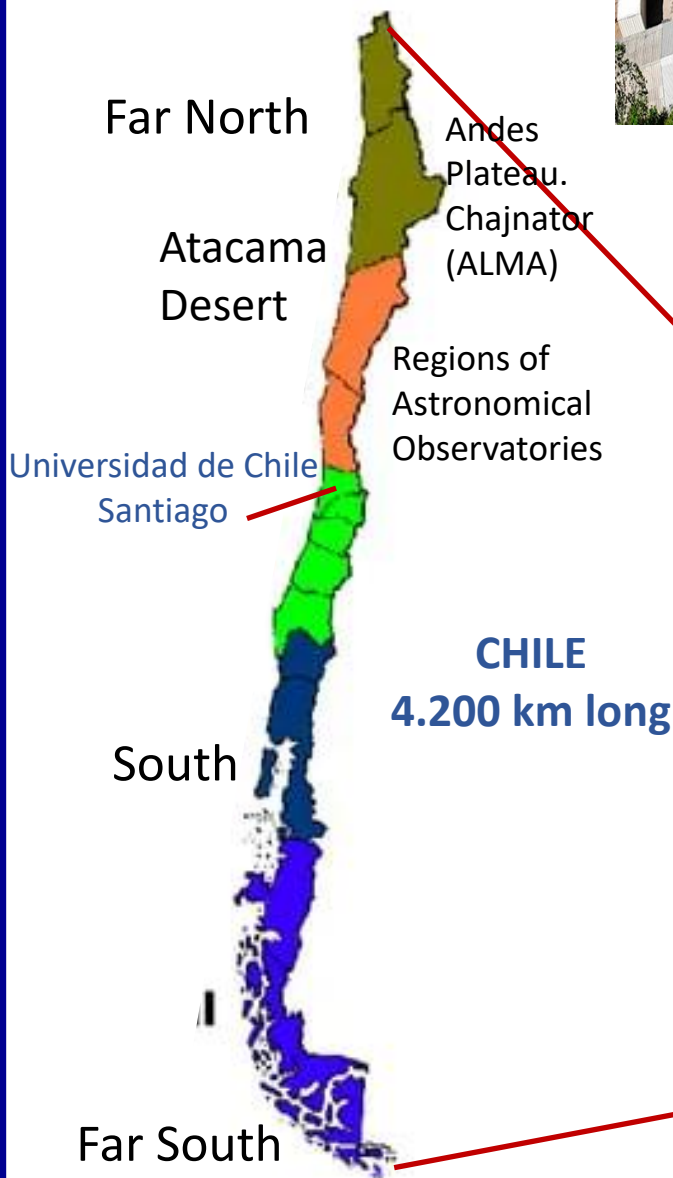

Dr. Raúl Morales

Institutional House

Campus: Faculty of Sciences

Department of Chemistry

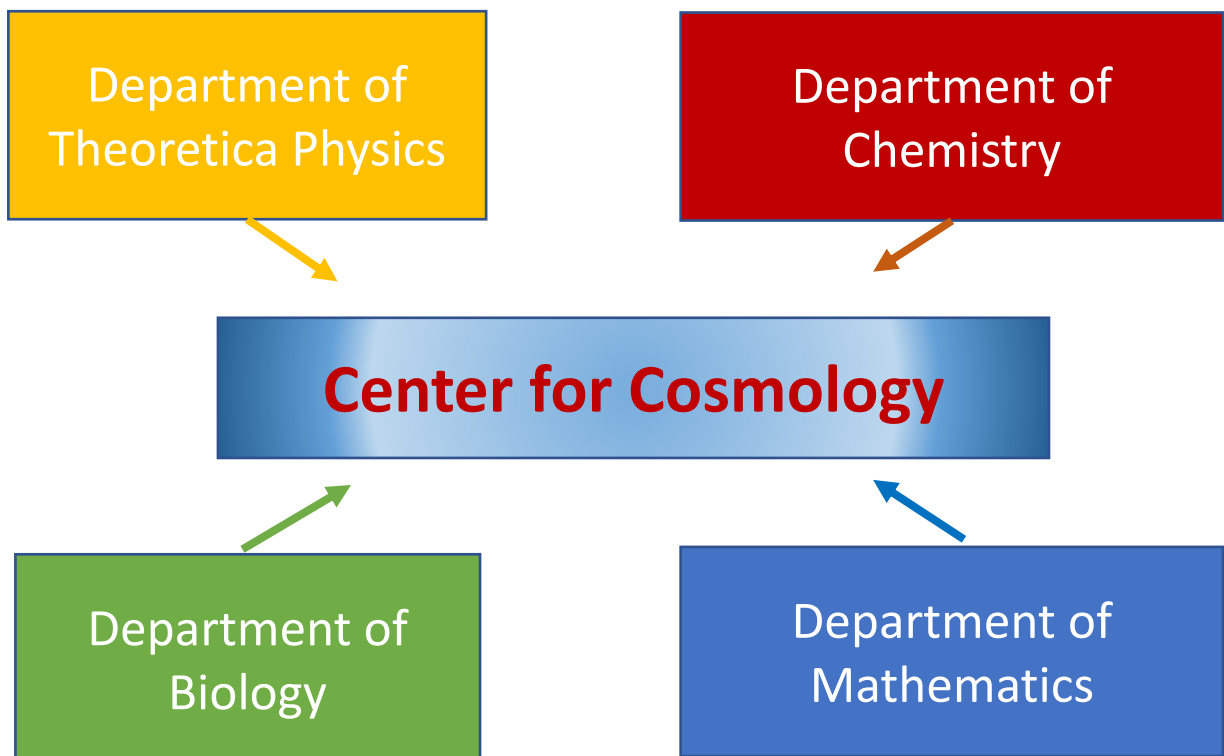

# On the 60th Anniversary of the Faculty of Sciences we have inaugurated the Center for Cosmology of the University of Chile

The Cosmology Center is made up of researchers from the Departments of Biology, Theoretical Physics, Chemistry and Mathematics.

All of them with lines of research in the fields of Physics of the Cosmos, Astrophysics, Astrochemistry and Astrobiology, as well as Cosmic Evolution.

The Center for Cosmology is particularly focused on the development of research and teaching in fundamental areas of Cosmology and Cosmic Evolution to encourage students in Master's and Doctoral Programs.

**UNIVERSIDAD DE CHILE**

**Facultad de Ciencias**

**Center for Cosmology**

# **International Symposium Cosmology and Cosmic Evolution**

**6 to 10 of October, 2025**

**Santiago, Chile**

**Works about the composition, origin, structure and fate of the Universe, the fundamental physics governing it and the cosmic evolution.**

## **Main Topics:**

- Early Universe
- Theoretical Cosmology
- Astrophysics
- Astrochemistry
- Astrobiology
- Cosmic Evolution
- Philosophy of Cosmology

## **Registrations for:**

- Master Classes**
- Conferences**
- Oral Sessions**
- Poster Sessions**

## **Information:**
